"BDS" Bag Dump System Option

Large High Efficiency Dust Filtration

High Ground Clearance

**PS140
RIDE-ON
SWEEPER**

- Vacuum Assisted High Productivity Sweeping
- Large Filtration for Dust Free Sweeping
- Heavy Duty Modern Industrial Design
- "BDS" Bag Dump System - for added versatility
- Large wheels for Maximum Ground Clearance
- Battery, Petrol, LPG & Diesel Models Available

The PowerSweep PS140 Ride-On Sweeper features a unique Top-Load debris loading system; as opposed to the typical industry direct-throw system that purely sweeps debris into the hopper floor like a dustpan, the PS140 loads debris from above into a tall four-sided hopper. This results in the machine having a higher *true* debris-carrying capacity compared to like-sized machines. The PS140 also features our unique "BDS" Bag Disposal System, which provides the operator with the option of using the hydraulic High-Dump hopper or simply removing a plastic bag of debris for easy ground-height disposal. The "BDS" Bag Disposal System is particularly handy for where a trade waste bin may not be readily accessible.

Available in Battery, Petrol, LPG and Diesel power options, the PowerSweep PS140 is a high-performance sweeper that excels in harsh high-debris applications. The PS140 is well-suited to warehousing, manufacturing, retail, car parks, shopping plazas, pathways, etc.

Model	PS140 - Battery	PS140 - Petrol	PS140 - LPG	PS140 - Diesel
Motor	36 V	Honda (Industrial)	Honda (Industrial)	Kubota (Industrial)
