Automatic Filter Cleaning System

The PowerSweep PS170 is a Heavy-Duty industrial grade machine that features a state-of-the-art high-efficiency dust filtration system. The high-efficiency filtration system combined with the units wide 170 cm sweeping path provides maximum productivity and efficiency in the one pass, leaving the floor clean and surrounding environment free of airborne machine dust.

The PowerSweep PS170 features a large 450 litre high-capacity debris hopper to enable longer sweep cycles. The debris hopper is hydraulically operated and has a high dump height of 155 cm to enable ease of emptying into trade waste bins.

The PowerSweep PS170 has been specially designed too and provides maximum performance and efficiency whilst delivering maximum productivity and return-on-investment. With its impressive 450 litre hopper, the PS170 is an extremely manoeuvrable high-capacity machine.
